ANOTHER HEARING To Be Held on Matter of Grade Cross

ing at Camp Station.

A petition of the New York, New Heven and Hartford Railroad company has been sent to the railroad commissioners for permission to construct the grade crossing in the town of Windham which by an order made on June 24 by the commission was to be built so as to make one highawy instead of two that will cross the tracks of the New York, New Haven and Hartford Railroad company and of the New London and Northern railroad near the camp station, with a grade lighter than shown on the blue-print map, the new proposed grade to be substantally the same.

The New London Northern Railroad company has assented to the proposed elange, and the petition will be heard in the office of the commissioners Friday morning at 11 o'clock.

Willimantic sent five men to bat in her baif of the seventh, but only made one hit and the side was retired with two men on. New London went out in order in the eighth, and then Willimantic had her great session.

Harris was first up and he hit safely over short. Noonan made a beautiful secrifice and Harris was on second. O'Bonnell clouted the ball over the right field fence again for two bases, sor if fielder's choice. O'Donnell reaching that on Connor's error. Sullivan hit for a single and stole second. O'Mara, hit for a single and stole second. O'Mara, hit for a single and stole second. O'Mara, hit for two bases. Petrick and D'Andrea both hit safely, and then Manley drove out a slashing three bagger and Harris made the third out by fanning. Reiger seemed to quit cold, and the batting feast was a dalay, seven hits in the inning, two two-baggers and a three bagger mixed in with the four singles. Foys. first up for New London, cracked out a two bagger, but was caught between second and third by Harris, D'Andrea to Noonan. Burns was passed, Nasher sained a life on fielder's choice, Burns being caught at second by Harris. Connor struck out, and the game was over, except for the chewing and there will be plenty of that. A Mean Business

It is no doubt necessary to guard against the flooding of this country with diseased and criminal immi-

Borough Officials Meet.

The regular monthly meeting of the warden and burgesses was heid Monday evening. Warden Lewis stated that he had conferred with the officials of the Nashawaug Electric company. They found it impossible to enter the borough officials and asked the officials again to establish a line of poles through North Main street. Another meeting with the electric light commissioners will be held in a week.

Burgess McCarthy reported for the fire department committee that the repainting of the hosehouse had been completed. The contract for sewerage on the macadam road and Oak street was awarded F. H. The Hon. Charles Stewart Rolls, son of the first Baron Llangattock, had always been well to the front in the latest methods of traction. A prominent cyclist, a daring and fearless motorist, a balloonist and the first Britlish aeronaut to establish an aeroplane record of any note, Mr. Rolls was a man who excelled in many parts, although he would not have been thirty-three years old until the end of August next. At Trinity college, Cambridge, he graduated in engineering, and took his B.A. degree the same year; incidentally he captained the university bicycle team in 1897, and became a "half Blue." He was one of the ploneers in the introduction of automobilism into the country, and his achievements in this sport, both on the continent and in England, was quite a formidable list. People from the borough who happened to be awake shortly after midnight Tuesday morning saw the light feer of the house and barn owned by Chales C. Lehman at Bethel, in Griswold, a few miles south of this place.

The house was formerly owned by Manufacturing company and occupied by George Taylor, tearing the chimney down and setting fire to the shingles. It was only a few minutes when the alarm was rung in and many better a summer home. The loss will foot up \$3,000, partially covered by insurance.

The cause of the fire is unknown. There was but little water to be had been laid from the velver mill had been laid from the velve

doomed. Looking around you in the tops of the elms not already dead, you in the tops of the elms not already dead, you done cheaply and in a hurry-scurry dimbust the tree, being for a mere pittance. If your work is tops of the elms not already dead branches and limbs, the number of which increases from year to year till the tree, being sapped of all vitality, finally falls to send forth any more leaves in the spring, and 30 or 100 years of tree is grown than passed to the choppers' axe, and the cost of cutting a large left than the spraying bay for many years of spraying that same tree and keeping it in green and healthy condition. Now what would the city of Norwich look like without light many beautiful trees? It could hardly be called the Pearl of New England.

Spraying trees, if done in a thorough, painstaking way, with the right chemicals and enough of it will kill every leaf-eating insect or slug in the trees. That is an established fact, Now, the question is to get a reliable firm to spray your trees at a fair price and do the work so well that he can practically guarantee your trees free of bugs, and green and iuxurlous all season. Are you willing to pay a fair price for just such reliable work? It's dangerous work and laborlous in the extreme, and labor of that kind has to be paid for pretty well. But what are extreme, and labor of that kind has to be paid for pretty well. But what are a few dollars out of your pleasures to save your beautiful trees, which are besides the beauty to the eye of so much consequence and comfort in the summer? There are already so-called spraying firms in the field who on fair
